

Heathside School
Accessibility Plan

September 2006

Heathside considers itself to be an inclusive school. Pupils with disabilities will not be discriminated against and will be welcome to join the school provided that we can supply suitable facilities and resources to cater for individual needs. In accordance with the Disabilities Discrimination Act we will make “reasonable adjustments” in order to facilitate needs.

Since the school opened in September 1993 we have never refused a child access due to a disability.
